**Charities Client(s) For The Year Reported:****Fundraiser's Comments Regarding Financial Information (Optional):**

This is the first time Gateway has performed fundraising tasks for Washington charities. Washington requires its charities to keep clear records indicating from which fundraising activities certain contributions come from. Until now our clients have been exclusively Oregon based charities and are not subject to the same requirement. Although many Oregon charities do their best to track such information as it is in their best interest to do so regardless of state regulation, the (2006) figures are not as precise as one might find with a Washington charity. Therefore, line 1 (Total Contributions) reflects good faith estimates as to the income to these charities as a direct result the portion of fundraising activities that we were a part of for the charities. Line 2 (Net Amount to Charities) reflects accurately the amounts paid by charities for the solicitations completed during 2006.

**Fundraiser's Comments Regarding Financial Information (Optional):**

The focus of Gordon & Schwenkmeyer's telemarketing donor development program is twofold: first, to identify and create new contributors to sustain and help an organization grow; second, to use the telephone as a valuable public education outreach tool to inform people about the organization's mission and programs. As with other small donor development programs, most telemarketing donor prospecting efforts generally yield very little net income. But without a constant infusion of new contributors, an organization cannot grow or expand its programs.

Gordon & Schwenkmeyer's program does not require any direct funding from our clients. We realize that most of our clients have very limited funds to invest in donor development programs. At no time do we ask our clients for direct payment of the program's expenses, rather, the expenses are paid for by the returns generated from the calling and any deficit incurred by the donor prospecting program is financed, interest-free, by Gordon & Schwenkmeyer and repaid from the net income generated by resoliciting the newly developed donors. Once the initial program deficit has been repaid, all net income is distributed directly to our client.

The Washington State Firefighters Association (WAFFA) conducted their own solicitation campaign during the period June 1, 2006 through December 31, 2006 using employees of WAFFA. WAFFA received a total of \$1,026,068 in contributions, used \$826,068 to pay fundraising expenses and made a net gain of \$200,000. Civic Development Group acted as a Fundraising Consultant to WAFFA, however because of high fundraising expenses and the terms of the Management Consulting Agreement, Civic Development Group did not receive any Management Consulting Fees for this period.

The Washington State Patrol Troopers Association (WAPTA) conducted their own solicitation campaign during the period June 1, 2006 through December 31, 2006 using employees of WAPTA. WAPTA received a total of \$635,024 in contributions, used \$513,870 to pay fundraising expenses and made a net gain of \$121,154. Civic Development Group acted as a Fundraising Consultant to WAPTA, however because of high fundraising expenses and the terms of the Management Consulting Agreement, Civic Development Group did not receive any Management Consulting Fees for this period.

The Disabled Veterans Association (DVA) conducted their own solicitation campaign during the period June 1, 2006 through December 31, 2006 using employees of DVA. DVA received a total of \$192,392 in contributions, used \$178,702 to pay fundraising expenses and made a net gain of \$13,690. Civic Development Group acted as a Fundraising Consultant to DVA, and was paid \$106,844.97 in Management Consulting Fees for this period.

**Fundraiser's Comments Regarding Financial Information (Optional):**

The total amount of contributions received by CharityUSA.com, LLC from the public in fiscal 2007 was \$498,735. Of that \$498,735, 100% was given to charity. There were no deductions taken from amounts given to charities for fundraising costs or credit card processing charges. Other "contributions" shown above were actual sales of product and advertising. An additional \$1,225,295 royalty was paid to charities on product and advertising sales in 2007.

The GreaterGood Network of websites, run by CharityUSA.com, LLC, offer the public a unique opportunity to support causes they care about at no cost to them. Each person's daily click on the GreaterGood Network of "click-to-give" sites displays sponsor advertising. One hundred percent (100%) of the collected revenue from sponsor advertising is paid as a royalty to charity through the non-profit, tax-exempt GreaterGood.org. Supporters can also contribute directly to charity by purchasing "Gifts that Give More", where one hundred percent (100%) of their donation is given to charity, or by purchasing one of the 4500+ products that we carry, including jewelry, apparel, and gifts. There is a charity royalty paid on every item purchased from any of the GreaterGood Network's online stores.

CharityUSA.com, LLC is also one of the largest U.S. importers of fair-trade artisan products made by rural peoples from areas of conflict and poverty. We sell products from 80 countries and work with charity partners to directly import custom jewelry and other products from artisan cooperatives all over the world. In fiscal 2007, CharityUSA.com, LLC sent buyers and product designers to numerous shows in the U.S.A. as well as Rwanda, Mali, Ghana, Burkina Faso, Egypt, Ethiopia, Germany, India, China, Bolivia, and Peru. We are a mission-driven company, and it is our belief that selling artisan products made by rural people, women especially, is one of the most important things we do, because it reduces intergenerational poverty and has been correlated with improved education for children, reduced incidence of disease, and increased family and community incomes.

In FY '07, our network of click-to-give sites and stores generated just over \$1.7 million for charity. This was nearly 7 times our after-tax profit.

Monies generated for charity were in two forms: contributions from the public (\$498,735) and royalty payments for product and advertising sales (\$1,225,295).

One hundred percent (100%) of monies given as contributions from the public were paid directly to charities, without any deductions for expenses incurred by CharityUSA (such as credit card processing or bank fees).

Remaining funds generated for charity were in the form of royalty payments on product and advertising sales. Charities paid no fundraising expenses. One hundred percent (100%) of revenue collected for sponsor advertising on our network of click-to-give sites (including www.TheBreastCancerSite, www.TheAnimalRescueSite, www.TheHungerSite, etc.) was paid to charity. There were no deductions for expenses or sales commissions. Additionally, a charity royalty of from 3 - 30% is paid on every item sold in any of our online stores. Royalty payments on advertising and product sales generated another \$1,225,295 dollars in fiscal year 2007.

**Fundraiser's Comments Regarding Financial Information (Optional):**

The financials in this renewal reflect state figures instead of national figures.  
 DialAmerica Marketing, Inc. conducts two types of fundraising, co-venture sale of magazine subscriptions and a business-to-business campaign. Pursuant to the terms of the magazine licensing agreements between DialAmerica Marketing, Inc. and the pertinent charitable organizations, it is understood that the charitable organizations will receive 12.5% of all subscriptions sold on their behalf. Donations are not solicited, magazines are offered at the lowest price available to the public, and customers are told that 12.5% of their subscription price will, in turn, be paid to the pertinent charitable organization by DialAmerica Marketing, Inc.

**Fundraiser's Comments Regarding Financial Information (Optional):**

The American Civil Liberties Union, Inc. (ACLU) hired Grassroots Campaigns (GCI) to conduct its first-ever door-to-door prospecting effort to identify and recruit new members in 2006, and the results of this effort are summarized in this financial report. As you can imagine with any prospecting campaign, a lot of money and resources had to be expended to search for and identify donors who were supportive, and the expense of this prospecting campaign exceeded the revenues raised as is often the case with prospecting efforts undertaken by any new charity. However please note that by educating the public about the erosion of privacy rights at the state and federal level, and getting Washington State residents to take action on this and other issues, this door to door canvassing engaged in valuable programmatic activity to help pass laws and implement policies to protect civil liberties. Therefore the donations of citizens collected through this door canvassing effort has already gone directly to pay for programmatic work, but the format of this financial report did not allow us to numerically represent this important aspect of the fundraising campaign. In addition ACLU has been doing follow-up solicitation with the donors who were identified during this door canvassing effort, and GCI anticipates that over time this will more than make up for whatever expenses of the canvassing campaign were not covered by revenues - raising additional resources over time for even more programmatic work. Finally a number of donors signed up by GCI have chosen to spread their support over time through monthly donations, the long-term ongoing value of which has not yet been captured in the financial report submitted to the state of Washington, so this financial report undercounts true revenues generated from the 2006 canvassing effort.

Together We Can Change the World, Inc. does not list any of their 150,000+ registered organizations because they are all donor-designated. TWCCTW operates an online Mall called Shop For Charity Day. They offer 1000+ stores for consumers to shop from, designating up to 75% of the purchase price back to any of the 150,000 organizations registered. The consumer also has the option of adding an organization they wish to support. 70% of all profits generated from shopping is returned back to the designated organization.

**Fundraiser's Comments Regarding Financial Information (Optional):**

Risk Reduction Provision: The sole source of payment for TDSI's calling invoices will be from funds received into the charity's post office box or via credit card. The charity will count, sort, post and deposit all funds received from this campaign separately from any other ministry funds, and will apply all such funds received toward payment of TDSI's calling invoices. Payment of TDSI will be made on a bi-weekly basis; up to the amount of funds received, but shall at not time exceed the total amount of outstanding TDSI invoices. Should there be any program net income after payment of all outstanding invoices, it shall be the sole property of the charity.

The charity further agrees that all funds received from TDSI contacted donors within 90 to 120 days, depending upon the charity, shall be applied to the outstanding TDSI calling invoices until all such invoices are paid in full. Should income in the required amount to pay all invoices not be generated within 90 to 120 days of the first contact, TDSI agrees to provide the charity a credit memo for the balance of outstanding calling invoices.

The value for question one needs to be changed from \$47,791.37 to \$83,556.37. The value for question two only includes funds received and retained by the charities within the first 90 to 120 days. We are in the process of obtaining the financial records from Promise Keepers, Oblate Missions and Cancer Recovery Foundation of America to show what they received and retained after that time period. These will be included in the "Supplemental Solicitation Report".

**Note A:**

The percentage of funds retained by charity clients is based on the most current financial information provided by the Commercial Fundraisers listed above. These percentages reflect the overall amount of funds received or retained by the client charities after all fundraising costs have been deducted from the total value of contributions received on behalf of the charity by the Commercial Fundraiser or by the charity client. The difference between Total Contributions and Net to Charity Client(s) may include fundraising expenses other than fees paid to a Commercial Fundraiser. It should also be noted that these figures do not necessarily indicate the specific percentage of funds allocated by a given charity to its charitable purpose. In some instances, charities may be using a combination of direct fundraising and a Commercial Fundraiser; others may be using several different Commercial Fundraisers, whose yield to the charity may vary.

**Note B:**

The charity clients listed are based on registration information submitted by the Commercial Fundraiser and/or the Charitable Organization. In some instances, the Commercial Fundraiser and Charitable Organization may no longer have a contractual relationship to conduct fundraising activities in Washington State.

**Note C:**

The financial information provided by the Commercial Fundraisers listed above is aggregate and may reflect activities in Washington State, nationally, or a combination thereof.

**Note D:**

Financial information is not available for some of the Commercial Fundraisers listed. If the financial information displayed is blank, contains zeros, or is outdated, it is possible that the organization is newly registered, did not solicit contributions in Washington State during the fiscal/accounting year reported, or has re-registered after a period of inactivity. Please contact the Charities Program for more specific information.
